

regular valuation date for the year of contribution occurs after the date of the additional contribution, the additional contribution including income earned by it is valued on the regular valuation date. Thus, the required payout with respect to the additional contribution is  $\$325.87$  (5 percent  $\times$   $[\$12,500 + \$500] \times 183/365$ ).

(c) *Calculation of the fair market value of the remainder interest of a charitable remainder unitrust.* See § 1.664-4 for rules relating to the calculation of the fair market value of the remainder interest of a charitable remainder unitrust.

(d) *Deduction for transfers to a charitable remainder unitrust.* For rules relating to a deduction for transfers to a charitable remainder unitrust, see section 170, 2055, 2106, or 2522 and the regulations thereunder. The deduction allowed by section 170 for transfers to charity is limited to the fair market value of the remainder interest of a charitable remainder unitrusts regardless of whether an organization described in section 170(c) also receives a portion of the amount described in § 1.664-3(a)(1). For a special rule relating to the reduction of the amount of a charitable contribution deduction with respect to a contribution of certain ordinary income property or capital gain property, see section 170(e)(1)(A) or (B)(i) and the regulations thereunder. For rules for postponing the time for deduction of a charitable contribution of a future interest in tangible personal property, see section 170(a)(3) and the regulations thereunder.

[T.D. 7202, 37 FR 16920, Aug. 23, 1972, as amended by T.D. 8791, 63 FR 68192, Dec. 10, 1998]

**§ 1.664-4 Calculation of the fair market value of the remainder interest in a charitable remainder unitrust.**

(a) *Rules for determining present value.* For purposes of sections 170, 2055, 2106, and 2522, the fair market value of a remainder interest in a charitable remainder unitrust (as described in § 1.664-3) is its present value determined under paragraph (d) of this section. The present value determined under this section shall be computed on the basis of—

(1) Life contingencies determined as to each life involved, from the values of *lx* set forth in Table 80CNSMT contained in § 20.2031-7(d)(6) of this chapter

(Estate Tax Regulations) in the case of transfers for which the valuation date is after April 30, 1989, or column 2 of Table LN, of § 20.2031-7A(d)(6) of this chapter in the case of transfers made after November 30, 1983, for which the valuation date is before May 1, 1989. See § 20.2031-7A (a) through (c) of this chapter, whichever is applicable, for transfers for which the valuation date is before December 1, 1983;

(2) Interest at the section 7520 rate in the case of transfers for which the valuation date is after April 30, 1989, or 10 percent in the case of transfers to charitable remainder unitrusts made after November 30, 1983, for which the valuation date is before May 1, 1989. See § 20.2031-7A (a) through (c) of this chapter, whichever is applicable, for transfers for which the valuation date is before December 1, 1983; and

(3) The assumption that the amount described in § 1.664-3(a)(1)(i)(a) is distributed in accordance with the payout sequence described in the governing instrument. If the governing instrument does not prescribe when the distribution is made during the period for which the payment is made, for purposes of this section, the distribution is considered payable on the first day of the period for which the payment is made.

(b) *Actuarial Computations by the Internal Revenue Service.* The regulations in this and in related sections provide tables of actuarial factors and examples that illustrate the use of the tables in determining the value of remainder interests in property. Section 1.7520-1(c)(2) refers to government publications that provide additional tables of factors and examples of computations for more complex situations. If the computation requires the use of a factor that is not provided in this section, the Commissioner may supply the factor upon a request for a ruling. A request for a ruling must be accompanied by a recitation of the facts including the date of birth of each measuring life, and copies of the relevant documents. A request for a ruling must comply with the instructions for requesting a ruling published periodically in the Internal Revenue Bulletin (See § 601.601(d)(2)(ii)(b) of this chapter) and include payment of the required

user fee. If the Commissioner furnishes the factor, a copy of the letter supplying the factor should be attached to the tax return in which the deduction is claimed. If the Commissioner does not furnish the factor, the taxpayer must furnish a factor computed in accordance with the principles set forth in this section.

(c) *Statement supporting deduction required.* Any claim for a deduction on any return for the value of a remainder interest in a charitable remainder unitrust must be supported by a full statement attached to the return showing the computation of the present value of such interest.

(d) *Valuation.* The fair market value of a remainder interest in a charitable remainder unitrust (as described in § 1.664-3) for transfers for which the valuation date is after April 30, 1989, is its present value determined under paragraph (e) of this section. The fair market value of a remainder interest in a charitable remainder unitrust (as described in § 1.664-3) for transfers for which the valuation date is before May 1, 1989, is its present value determined under the following sections:

Valuation dates		Applicable regulations
After	Before	
12-31-51 .....	01-01-52	1.664-4A(a)
12-31-70 .....	01-01-71	1.664-4A(b)
11-30-83 .....	12-01-83	1.664-4A(c)
	05-01-89	1.664-4A(d)

(e) *Valuation of charitable remainder unitrusts having certain payout sequences for transfers for which the valuation date is after April 30, 1989—(1) In general.* Except as otherwise provided in paragraph (e)(2) of this section, in the case of transfers for which the valuation date is after April 30, 1989, the present value of a remainder interest is determined under paragraphs (e)(3) through (e)(6) of this section, provided that the amount of the payout as of any payout date during any taxable year of the trust is not larger than the amount that the trust could distribute on such date under § 1.664-3(a)(1)(v) if the taxable year of the trust were to end on such date. See, however, § 1.7520-3(b) (relating to exceptions to the use of the prescribed tables under certain circumstances).

(2) *Transitional rules for valuation of charitable remainder unitrusts.* (i) If the valuation date of a transfer to a charitable remainder unitrust is after April 30, 1989, and before June 10, 1994, a transferor can rely upon Notice 89-24, 1989-1 C.B. 660, or Notice 89-60, 1989-1 C.B. 700, in valuing the transferred interest. (See § 601.601(d)(2)(ii)(b) of this chapter.)

(ii) For purposes of sections 2055, 2106, or 2624, if on May 1, 1989, the decedent was mentally incompetent so that the disposition of the property could not be changed, and the decedent died after April 30, 1989, without having regained competency to dispose of the decedent's property, or the decedent died within 90 days of the date that the decedent first regained competency after April 30, 1989, the present value of a remainder interest determined under this section is determined as if the valuation date with respect to the decedent's gross estate is either before May 1, 1989, or after April 30, 1989, at the option of the decedent's executor.

(3) *Adjusted payout rate.* For transfers for which the valuation date is after April 30, 1989, the adjusted payout rate is determined by using the appropriate Table F, contained in paragraph (e)(6) of this section, for the section 7520 interest rate applicable to the transfer. If the interest rate is between 4.2 and 14 percent, see paragraph (e)(6) of this section. If the interest rate is below 4.2 percent or greater than 14 percent, see § 1.664-4(b). The adjusted payout rate is determined by multiplying the fixed percentage described in § 1.664-3(a)(1)(i)(a) by the factor describing the payout sequence of the trust and the number of months by which the valuation date for the first full taxable year of the trust precedes the first payout date for such taxable year. If the governing instrument does not prescribe when the distribution or distributions shall be made during the taxable year of the trust, see § 1.664-4(a). In the case of a trust having a payout sequence for which no figures have been provided by the appropriate table, and in the case of a trust that determines the fair market value of the trust assets by taking the average of valuations on more than one date during the taxable year, see § 1.664-4(b).

(4) *Period is a term of years.* If the period described in § 1.664-3(a)(5) is a term of years, the factor that is used in determining the present value of the remainder interest for transfers for which the valuation date is after April 30, 1989, is the factor under the appropriate adjusted payout rate in Table D in paragraph (e)(6) of this section corresponding to the number of years in the years. If the adjusted payout rate is an amount that is between adjusted payout rates for which factors are provided in Table D, a linear interpolation must be made. The present value of the remainder interest is determined by multiplying the net fair market value (as of the appropriate valuation date) of the property placed in trust by the factor determined under this paragraph. For purposes of this section, the valuation date is, in the case of an inter vivos transfer, the date on which the property is transferred to the trust by the donor. However, if an election is made under section 7520 and § 1.7520-2(b) to compute the present value of the charitable interest by use of the interest rate component for either of the 2 months preceding the month in which the date of transfer falls, the month so elected is the valuation date for purposes of determining the interest rate and mortality tables. In the case of a testamentary transfer under section 2055, 2106, or 2624, the valuation date is the date of death, unless the alternate valuation date is elected under section 2032, in which event, and within the limitations set forth in section 2032 and the regulations thereunder, the valuation date is the alternate valuation date. If the decedent's estate elects the alternate valuation date under section 2032 and also elects, under section 7520 and § 1.7520-2(b), to use the interest rate component for one of the 2 months preceding the alternate valuation date, the month so elected is the valuation date for purposes of determining the interest rate and mortality tables. If the adjusted payout rate is between 4.2 and 14 percent, see paragraph (e)(6) of this section. If the adjusted payout rate is less than 4.2 percent or greater than 14 percent, see § 1.664-4(b). The application of this paragraph may be illustrated by the following example:

*Example.* D transfers \$100,000 to a charitable remainder unitrust on January 1, 1990. The trust instrument requires that the trust pay 8 percent of the fair market value of the trust assets as of January 1st for a term of 12 years to D in quarterly payments (March 31, June 30, September 30, and December 31). The section 7520 rate of January 1990 is 9.6 percent. Under Table F(9.6), the appropriate adjustment factor is .944628 for quarterly payments payable at the end of each quarter. The adjusted payout rate is 7.557 (8%×.944628). Based on the remainder factors in Table D, the present value of the remainder interest is \$38,950.30, computed as follows:

Factor at 7.4 percent for 12 years .....	.397495
Factor at 7.6 percent for 12 years .....	.387314
Difference .....	.010181

Interpolation adjustment:

$$\frac{9.47\% - 9.4\%}{0.2\%} = \frac{x}{.00463}$$

$$x = .00162$$

Factor at 7.4 percent for 12 years .....	.397495
Less: Interpolation adjustment .....	.007992
Interpolated factor .....	.389503
Present value of remainder interest:	
(\$100,000×.389503) .....	\$38,950.30

(5) *Period is the life of one individual.* If the period described in § 1.664-3(a)(5) is the life of one individual, the factor that is used in determining the present value of the remainder interest for transfers for which the valuation date is after April 30, 1989, is the factor in Table U(1) in paragraph (e)(6) of this section under the appropriate adjusted payout. For purposes of the computations described in this paragraph, the age of an individual is the age of that individual at the individual's nearest birthday. If the adjusted payout rate is an amount that is between adjusted payout rates for which factors are provided in the appropriate table, a linear interpolation must be made. The present value of the remainder interest is determined by multiplying the net fair market value (as of the valuation

## Internal Revenue Service, Treasury

## § 1.664-4

date as determined in paragraph (e)(4) of this section) of the property placed in trust by the factor determined under this paragraph (e)(5). If the adjusted payout rate is between 4.2 and 14 percent, see paragraph (e)(6) of this section. If the adjusted payout rate is below 4.2 percent or greater than 14 percent, see § 1.664-4(b). The application of this paragraph may be illustrated by the following example:

*Example.* A, who will be 45 years old on February 19, 1990, transfers \$100,000 to a charitable remainder unitrust on January 1, 1990. The trust instrument requires that the trust pay to A semiannually (on June 30 and December 31) 9 percent of the fair market value of the trust assets as of January 1st during A's life. The section 7520 rate for January 1990 is 9.6 percent. Under Table F(9.6), the appropriate adjustment factor is .933805 for semiannual payments payable at the end of the semiannual period. The adjusted payout rate is 8.404 (9%×.933805). Based on the remainder factors in Table U(1), the present value of the remainder interest is \$11,098.00, computed as follows:

Factor at 8.4 percent at age 45 ...	.11106
Factor at 8.6 percent at age 45 ...	.10683
Difference .....	.00423

Interpolation adjustment:

$$\frac{8.404\% - 8.4\%}{0.2\%} = \frac{x}{.00423}$$

$$x = .00008$$

Factor at 8.4 percent at age 45 .....	.11106
Less: Interpolation adjustment .....	.00008
Interpolated Factor .....	.11098
Present value of remainder interest: (\$100,000×.11098) .....	\$11,098.00

(6) *Actuarial tables for transfers for which the valuation date is after April 30, 1989.* For transfers for which the valuation date is after April 30, 1989, the present value of a charitable remainder unitrust interest that is dependent on a term of years or the termination of a life interest is determined by using the section 7520 rate and the tables set forth below. See, however, § 1.7520-3(b) (relating to exceptions to the use of prescribed tables under certain circumstances). Many actuarial factors not contained in the following tables are contained in Internal Revenue Service Publication 1458, "Actuarial Values, Beta Volume," (8-89). A copy of this publication may be purchased from the Superintendent of Documents, United States Government Printing Office, Washington, DC 20402.

TREATMENT OF EXCESS DISTRIBUTIONS OF TRUSTS APPLICABLE TO TAXABLE YEARS BEGINNING BEFORE JANUARY 1, 1969

**§ 1.665(a)-0 Excess distributions by trusts; scope of subpart D.**

Subpart D (section 665 and following), part I, subchapter J, chapter 1 of the Internal Revenue Code, in the case of trusts other than foreign trusts created by U.S. persons, is designed generally to prevent a shift of tax burden to a trust from a beneficiary or beneficiaries. In the case of a foreign trust created by a U.S. person, subpart D is designed to prevent certain other tax avoidance possibilities. To accomplish these ends, subpart D provides special rules for treatment of amounts paid, credited, or required to be distributed by a complex trust (subject to subpart C (section 661 and following) of such part I) in any year in excess of distributable net income for that year. Such an excess distribution is defined as an accumulation distribution, subject to

the limitations in section 665 (b) or (c). An accumulation distribution, in the case of a trust other than a foreign trust created by a U.S. person, is “thrown back” to each of the 5 preceding years in inverse order. In the case of a foreign trust created by a U.S. person such an accumulation distribution is “thrown back,” in inverse order, to each of the preceding years to which the Internal Revenue Code of 1954 applies. That is, an accumulation distribution will be taxed to the beneficiaries of the trust in the year the distribution is made or required, but, in general, only to the extent of the distributable net income of those years which was not in fact distributed. However, with respect to a distribution by a trust other than a foreign trust created by a U.S. person, the resulting tax will not be greater than the aggregate of the taxes that would have been attributable to the amount thrown back to previous years had they been included in gross income of the beneficiaries in those years. In the case of a foreign trust created by a U.S. person, the resulting tax is computed under the provisions of section 669. To prevent double taxation, both in the case
